

## About us

**54ONE** grew out of the desire of friends, coming from finance industry and broadcasting media, to propose everyday, an independent voice to the African continent and its diaspora.

With the dream to provide accessibility from any multimedia platforms, 54ONE is ready to share point of views and answers for day to day requests for news and information. From Algiers to Johannesburg or Dakar to Addis Ababa, everyone is concerned, but considering also the entire african diaspora worldwide through a unique link to access our WebTV, [www.54one.com](http://www.54one.com).

**54ONE** wants to be a cutting-edge initiative in the field of processing broadcasting information of the African continent. The daily information, relying on proximity and interactivity, is produced and broadcasted under the format of Live Africa News.

Our goal is to bring [www.54one.com](http://www.54one.com) as the reference in the broadcasting of African local information in order to facilitate integration and thus bring people closer wherever they are, towards institutional information.
